

Nura Visit Packet

PATIENT

Representative Patient

EPISODE

Persistent fatigue and fever

STARTED

29 Aug 2026, 6:05 pm

STATUS

Active

GENERATED

5 Sept 2026, 2:30 pm

Initial Symptoms

Persistent fever, fatigue, and reduced appetite over several days.

SEVERITY

6/10

DURATION

Four days

RECORDED

29 Aug 2026, 6:05 pm

Progress & Follow-ups

31 Aug 2026, 2:30 pm

PROGRESS

Some improvement after rest, though fatigue continues.

CURRENT SYMPTOMS

Mild fever and fatigue

MEDICINE COMPLIANCE

Taking medicines as prescribed

SIDE EFFECTS

No

Consultation History

29 Aug 2026, 6:07 pm

Dr. A. Sharma - City Clinic

The explanation supports careful clinical recommendation and investigation while preserving the original report wording for the appointment discussion.
